SLAMP REDEFINES LIGHTING
THROUGH AN **IMMERSIVE BACKDROP**
ABLE TO BE TRANSFORMED INTO
POWERFUL, FULFILLED **DESIRE**.

SLAMP VUOLE RIDEFINIRE IL CONCETTO DI ILLUMINAZIONE
IN **SCENOGRAFIE DI LUCE** COSÌ POTENTI DA DIVENTARE BISOGNI

SLAMP:

THE LEADING LIGHT

For over **30 years**, our collections—testaments to our dedication to innovation and aesthetic excellence—have uniquely illuminated the art of lighting.

Slamp blends industry and craftsmanship, art and design. Founded in 1994 from a creative vision of our CEO and founder **Roberto Ziliani**, who was honored with the **Compasso d'Oro alla Carriera** in 2024, coinciding with the brand's 30th-anniversary celebrations.

Slamp redefines lighting through an immersive backdrop able to be transformed into powerful, fulfilled desire.

We believe in **relationships** and in the synergistic collaboration between our company and internationally renowned designers and archi-stars, who bring to life truly unique lighting sculptures. Since our founding, we have been **deeply committed to a sustainable approach**, using durable, recyclable techno-polymers while continuously optimizing material offcuts. Thanks to our cold-cutting techniques and the meticulous design of our production site, Slamp operates with a **low environmental footprint.**

Our ability to experiment allows us to create original shapes, adaptable within space, capable of bringing to life truly unique luminous sculptures. This approach has also led us to embrace new materials such as steel and polycarbonate while preserving the distinctive DNA and recognizable aesthetics of Slamp - crafted through interlocking, cutting, and folding techniques - for **our first outdoor collections.**

Describing something entirely new is a challenge for all languages, which must reinvent themselves to give expression to the unseen. Innovation means imagining and creating what has never existed before. This spirit is epitomized by the **Nuvem Modular System** - a groundbreaking concept that continues to inspire our work and enables designers now to illuminate also outdoor spaces with this unique system.

Our headquarters, just outside Rome, is more than a creative hub and factory—it is a place where ideas and visions grow together, a space designed to be shared with design professionals.

Our doors are always open, as the future is crafted by many hands, united by a shared passion and desire to build something that will endure for generations.

Per più di **30 anni** le nostre collezioni, testamento della nostra dedizione all'innovazione e alla perizia estetica, hanno proiettato una luce senza uguali sull'arte dell'illuminazione e del design.

Slamp unisce industria e artigianato, arte e design e nasce nel 1994 da un'intuizione creativa del nostro CEO e fondatore **Roberto Ziliani** che ha ottenuto il riconoscimento del **Compasso d'Oro alla Carriera** nel 2024 proprio in concomitanza con le celebrazioni del trentesimo anniversario del brand.

Slamp vuole ridefinire il concetto di illuminazione in scenografie di luce così potenti da diventare bisogni.

Crediamo nelle relazioni e nel rapporto sinergico fra azienda e designer/archistar di fama internazionale che danno vita a vere e proprie sculture luminose uniche nel loro genere.
Fin dalla fondazione siamo particolarmente attenti al **ciclo virtuoso dei tecnopolimeri** resistenti, riciclabili e durevoli e alla costante ottimizzazione degli sfridi di produzione. Grazie alle nostre tecniche di lavorazione a freddo e all'attenzione con cui è stato progettato il sito produttivo, Slamp è un'azienda a **basso impatto ambientale.**

La nostra abilità di sperimentare ci consente di creare forme inedite, modulabili nello spazio, capaci di dar vita a vere e proprie sculture luminose uniche nel loro genere e ci ha portato ad accogliere anche nuovi materiali come l'acciaio e il policarbonato pur mantenendo il DNA e l'estetica riconoscibile propria di Slamp, fatto di incastri, tagli, piegature per **le nostre prime collezioni outdoor.**

Raccontare qualcosa di mai visto è una sfida per il linguaggio, che deve reinventarsi per dar voce all'inedito. Innovare significa creare ciò che ancora non esiste, come dimostra il **sistema Modulare Nuvem**, un'idea rivoluzionaria che continua ad ispirare il nostro lavoro e quello dei progettisti che scelgono di illuminare da oggi, anche gli spazi esterni con questo sistema irripetibile unico nel suo genere.

Il nostro HQ alle porte di Roma non è solo un hub creativo e uno stabilimento produttivo, ma un luogo di idee e visioni che crescono insieme e che desideriamo condividere con i professionisti del progetto.

Le nostre porte non si chiudono mai, perché il futuro si progetta a più mani, con chi condivide la nostra passione e il desiderio di costruire qualcosa che duri per generazioni.

The illuminated modular system sinuously undulates throughout a space with diverse polycarbonate layers that in the lamp's highest points, reach two meters of visionary fluidity.

La scultura luminosa è composta da un corpo illuminante modulare che crea onde sinusoidali nello spazio, avvolta da layer in policarbonato tutti diversi fra loro.

A **CUSTOMIZABLE SYSTEM** FOR SITE-SPECIFIC PROJECTS

To celebrate the 10th anniversary of Slamp's collaboration with Hadid Design Studio, Zaha's iconic 2013 Aria takes on new form in a modular version. The illuminated modular system sinuously undulates throughout space with diverse polycarbonate layers that in the lamp's highest points, reach two meters of visionary fluidity. The lamp's ever-evolving points of view are the fruit of careful research focused on how Lentiflex® enhances and liquifies illumination. Available in both total white and gold finishes: the elements are metallized through a process where an aluminum bar is vaporized in a hyperbaric chamber. The Slamp Team can customize solutions to any space, working alongside designers.

In onore del 10° anniversario della collaborazione fra Slamp e Zaha Hadid Design nasce la versione modulare dell'iconico best seller Aria, firmato da Zaha Hadid nel 2013. La scultura luminosa è composta da un corpo illuminante modulare che crea onde sinusoidali nello spazio, avvolta da layer in policarbonato tutti diversi fra loro che creano un disegno fluido e visionario e che, nel punto più alto della lampada, arrivano ai 2 metri di altezza. Grazie ad un attento studio sulla luce, essa cambia ed evolve a seconda del punto di osservazione: il corpo luminoso è infatti realizzato in Lentiflex®, materiale capace di fluidificare e propagare il flusso luminoso. È disponibile in due finiture, total white e metallizzata in oro, metallizzazione che si ottiene tramite la vaporizzazione di una barretta di alluminio in camera iperbarica. Realizzata su misura per progetti custom.

NUVEM MODULAR SYSTEM **INDOOR**

technical details p. 370

INFINITE EXTENSIONS
IN EVERY DIRECTION

The meter-long hexagonal modules are easily connected by hand using a series of interlocking tabs that allow for **limitless omnidirectional installation.**

Gli elementi esagonali di un metro quadro, tramite un semplicissimo sistema di connessioni eseguibili a mano, si uniscono gli uni agli altri **espandendosi in ogni direzione.**

PERSONALIZED SPOTLIGHTS

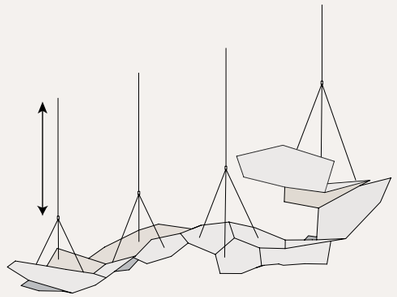

The lighting system consists of **bi-directional suspended spotlights** that can be lowered below the decorative module, passing through the holes in the composition, or raised above the structure. If compositional needs require it, the system offers **directional ceiling spotlights.**

Il sistema luminoso è composto da **faretti bidirezionali sospesi** che possono essere calati al di sotto del modulo decorativo, passando tramite i fori della composizione, o sollevati al di sopra della struttura. Se le necessità compositive lo richiedono il sistema offre **faretti direzionabili da soffitto**.

ceiling spotlight

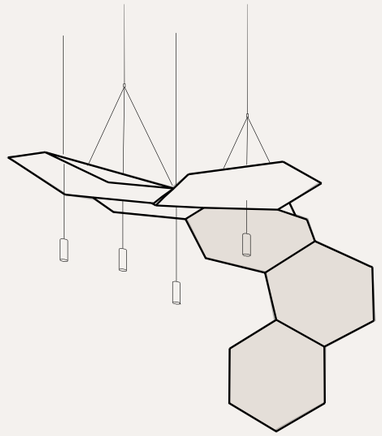

suspended spotlight

ADJUSTABLE HEIGHT

Nuvem's height can be adjusted using the 6 meter cable, and once suspended, the design can be "molded" using the **push and pull system** located directly beneath each module. The lamp collapses or tenses when the wires are pushed (released) or pulled, giving the ceiling a fluctuating feeling.

Oltre alla regolazione dei cavi fino a 6 metri, Nuvem dà la possibilità di modulare il design dell'oggetto, una volta sospeso, tramite il **sistema "push and pull"** posto direttamente al di sotto del modulo decorativo. Tirando o rilasciando i singoli cavi, la lampada si anima – collassando o stirandosi – per dare forma a un "soffitto" fluttuante.

FROM A LAMP TO A **VERTICAL DECORATION**

Nuvem goes beyond traditional illumination, with agile anatomy that allows it to transform the **architectural elements of a space**, running across the ceiling and moving down the walls, creating an infinite sky.

Nuvem va oltre la semplice illuminazione tradizionale: l'agilità della sua anatomia le permette di **enfatizzare gli elementi architettonici** trasformandosi da "soffitto" a decoro, calando sulle pareti per eliminare ogni confine tra cielo e terra della stanza.

DISCOVER HOW NUVEM SHAPES SPACES AROUND THE WORLD

UNIQUE MODULAR SYSTEM

Installation of 75 Nuvem Outdoor modules at Slamp's HQ in Pomezia (Rome).
Installazione di 75 moduli Nuvem Outdoor nella sede produttiva di Slamp, Pomezia (Roma)

technical details p. 368

LIGHT UNIT SYSTEM

The Light Unit is a 2-meter-long tubular silicone lighting element, capable of emitting light at 360°, ensuring uniform and immersive illumination. Thanks to its high flexibility, it is designed to blend harmoniously with the modular composition and integrates perfectly into the Nuvem Outdoor modular system.
The units can be easily installed using dedicated clips that ensure secure fastening, while the branching system allows multiple light units to be connected to a single power point.

La Light Unit è un elemento luminoso tubolare in silicone lungo 2 metri, capace di emettere luce a 360°, garantendo un'illuminazione uniforme e avvolgente. Grazie alla sua elevata flessibilità, è studiata per fondersi armoniosamente con la composizione modulare e si integra perfettamente nel sistema modulare Nuvem Outdoor. Le unità possono essere installate con facilità tramite agganci dedicati che ne assicurano il fissaggio, mentre il sistema di derivazione permette di collegare più unità luminose a un unico punto elettrico.

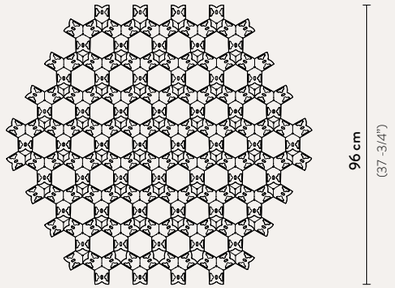

Palm & Berdawny Restaurant
Arabella Complex, Kuwait.
Project by: Space & Concepts

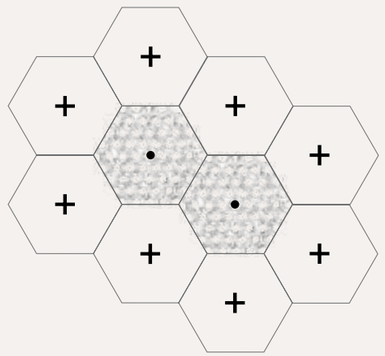

INFINITE EXTENSIONS IN EVERY DIRECTION

The one-square meter hexagonal elements, (96 x 103,5 x h 6 cm) are **connected through a simple system** that allows free expansion in every direction. The connection can be manually handled with the **"clipper" tool**, which allows the modules to be securely fastened together. If necessary, the clips can be removed in order to modify the connections between modules.

Nuvem Outdoor modules are made of **V0 polycarbonate**, classified according to the UL 94 standard, which evaluates the behavior of plastic materials in case of fire. The V0 rating represents the highest level of flame resistance in the Vertical Burning (V) category. A V0-certified material is self-extinguishing and safe for high fire-resistance applications, making it ideal for the lighting sector.

Gli elementi esagonali di un metro quadro (dimensioni: 96 x 103,5 x h 6cm) si uniscono **tramite un sistema di connessioni**, permettendo un'espansione libera in tutte le direzioni. Il **sistema di aggancio** è eseguibile a mano grazie allo **strumento "clipper"** che permette di fissare saldamente i moduli tra loro.
All' occorrenza le clip possono essere rimosse per un'installazione flessibile e modificabile senza interventi complessi.

I moduli Nuvem Outdoor sono realizzati in **policarbonato V0**, classificato secondo la normativa UL 94, che valuta il comportamento dei materiali plastici in caso di incendio. La sigla V0 indica il livello più alto di resistenza alla fiamma nella categoria Vertical Burning (V). Un materiale con certificazione V0 è autoestinguente e sicuro per applicazioni ad alta resistenza al fuoco, ideale per il settore di illuminazione.

For a simple and safe installation, we provide a detailed guide.
Discover the video instructions, technical information on the dedicated page.

GO TO THE VIDEO INSTRUCTIONS

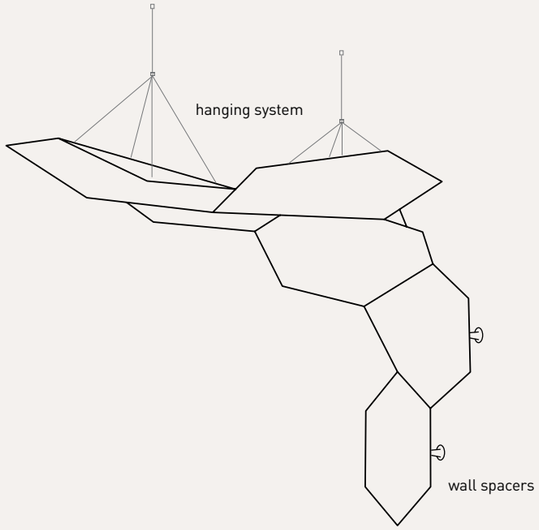

VISUAL IMPACT ON THE SURFACES

In addition to cable adjustment of up to 6 meters, Nuvem offers the possibility to shape the design of the installation once suspended, thanks to the **"push and pull" system** located directly beneath the decorative module. By pulling or releasing the individual cables, the lamp comes to life — creating concave or convex curves — to form a floating "ceiling".

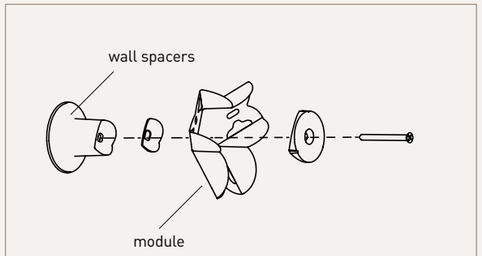

The wall anchoring system, using the **"spacer"** accessory, secures the composition at a set distance from the wall, **allowing the light to play with depth and projection effects.**

Oltre alla regolazione dei cavi fino a 6 metri, Nuvem dà la possibilità di modulare il design dell'oggetto, una volta sospeso, tramite il sistema **"push and pull"** posto direttamente al di sotto del modulo decorativo. Tirando o rilasciando i singoli cavi, la lampada si anima – creando delle curve concave o convesse – per dare forma a un "soffitto" fluttuante.

Il sistema di ancoraggio al muro grazie all'utilizzo dell' accessorio **"distanziatore"** fissa la composizione con una distanza dalla parete che **permette alla luce di giocare con la profondità e le proiezioni della composizione.**

WALL ANCHORING

technical details p. 368

More complex solutions, like the one shown here, are developed through close collaboration between the designer, the company and installers, to integrate the supporting structure and Nuvem Outdoor in a precise and controlled way.

Le soluzioni più articolate, come quella nella foto, nascono dal confronto tra progettista, azienda e installatori, per integrare struttura portante e Nuvem Outdoor in modo corretto e controllato.

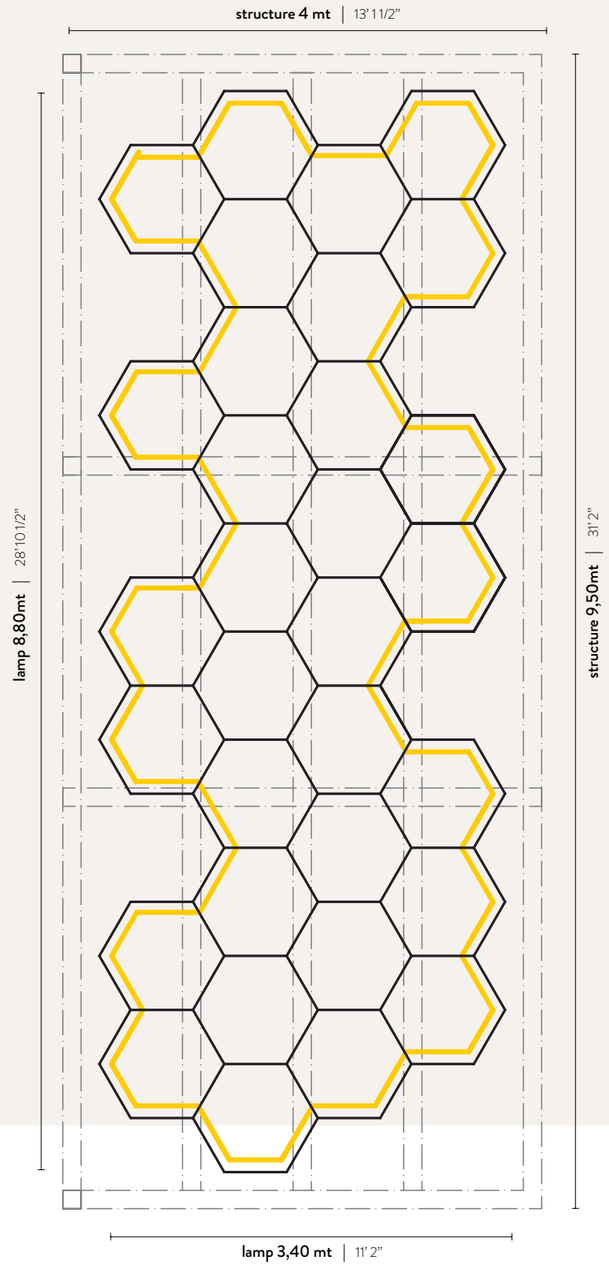

Installation of 40 modules.

URBAN POETRY BETWEEN ARCHITECTURE AND LIGHT

Cordoba is a lamp inspired by **architectural deconstructivism.** In perfect harmony with Daniel Libeskind's famous architecture, Cordoba encapsulates the architect's trademarks: broken lines and fragmented geometries that express his unique design philosophy.

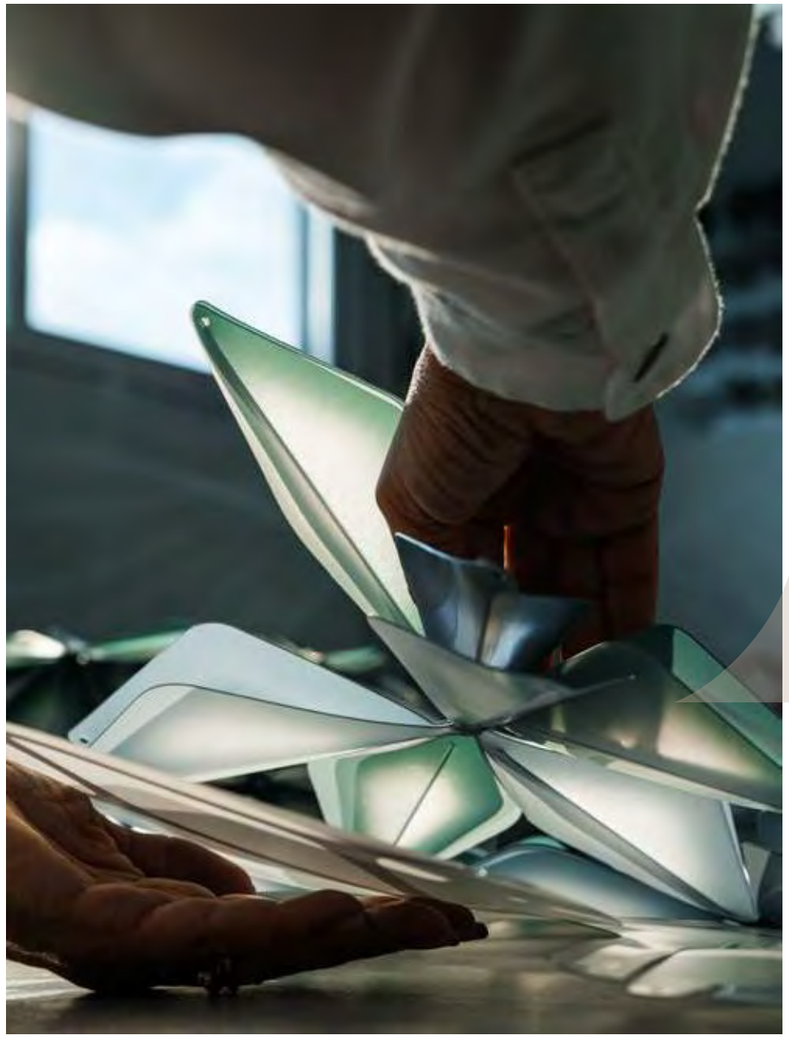

A **mathematical algorithm** combines two technopolymer panels into a suspension that harmoniously glows. The light sculpture is **sold fully assembled** thanks to a meticulous study of the packaging and the electrical connection is simplified as much as possible by the use of **connectors**.

Cordoba è una lampada ispirata al **decostruttivismo architettonico.**
In perfetta sintonia con le celebri architetture di Daniel Libeskind, Cordoba racchiude i tratti distintivi dell'architetto: linee spezzate e geometrie frammentate che esprimono la sua unica filosofia progettuale.

Due lastre di tecnopolimero prendono vita da un **algoritmo matematico** e diffondono la luce in maniera armonica. La scultura luminosa viene **venduta allestita** grazie ad uno studio meticoloso del packaging e la connessione elettrica è semplificata al massimo grazie all'uso di **connettori**.

TULIP **FREE-STANDING**

Printed templates are supplied for circular (pictured) or linear compositions.

Sono fornite dime stampate per composizioni circolari (nel disegno) o lineari.

TEMPLATES FOR EASY INSTALLATION

Available in multiples of 14 to create scenographic installations, the Free Standing version is ceiling-mounted using small brass fixings.

Slamp provides drilling templates that precisely guide the positioning of the light points and height adjustment, simplifying installation and allowing harmonious compositions to be achieved. In just a few steps, even the most complex installations become quick, intuitive, and visually impactful, supported by a dedicated design service for large-scale projects.

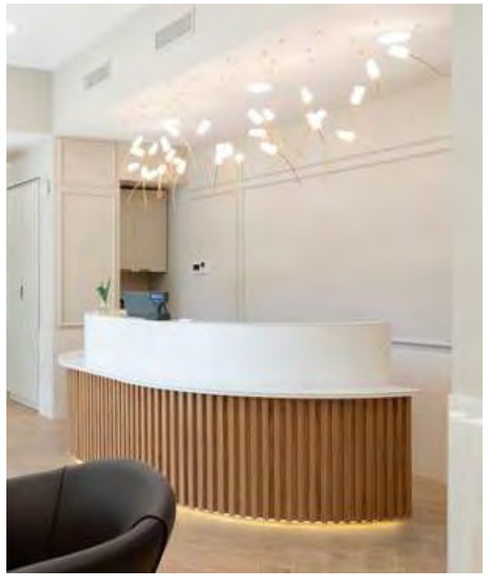

Disponibile in multipli di 14 per creare installazioni scenografiche, la versione Free Standing si ancora al soffitto tramite piccoli fissaggi in ottone.

Slamp fornisce dime di foratura che guidano con precisione il posizionamento dei punti luce e la regolazione delle altezze, semplificando l'installazione e permettendo di realizzare composizioni armoniose. In pochi passaggi, anche le installazioni più complesse risultano rapide, intuitive e dall'impatto scenografico garantito, grazie anche al servizio di progettazione dedicato alle grandi installazioni.

BENEFITS OF **MAGNETIC HANGING SYSTEM**

All versions of Clizia collection (Ceiling, Suspension and Table with cable) are equipped with a **magnetic system**, an innovative system that facilitates installation and cleaning of the petals: the decoration detaches from the light source with a simple click.

Thanks to the magnetic attachment, the installation is quick and safe and not only **simplifies the maintenance** of the product in **domestic contexts**, but also proves extremely advantageous for use in **public environments** by simplifying maintenance and cleaning, ideal for ensuring order in high-traffic environments such as offices, hotels and restaurants.

Tutte le versioni della collezione Clizia (Plafoniera, Sospensione e Tavolo con cavo) sono dotate di **attacco magnetico**, un sistema innovativo che facilita l'installazione e la pulizia dei petali: il decoro si stacca dalla fonte luminosa con un semplice click.

Grazie all'attacco magnetico, l'installazione è rapida e sicura e non solo **semplifica la gestione del prodotto in contesti domestici**, ma si rivela estremamente vantaggiosa anche per l'utilizzo **in ambienti pubblici semplificando la manutenzione** e pulizia, ideale per garantire ordine in ambienti ad alta frequentazione come uffici, hotel e ristoranti.

SUSPENSION WALL LAMP CEILING LAMP TABLE LAMP FLOOR LAMP

technical details p. 372

Poppy Suspension. Hand-shaped technopolymer poppies with red-painted brass stems, a fusion of craftsmanship and bold contemporary design.

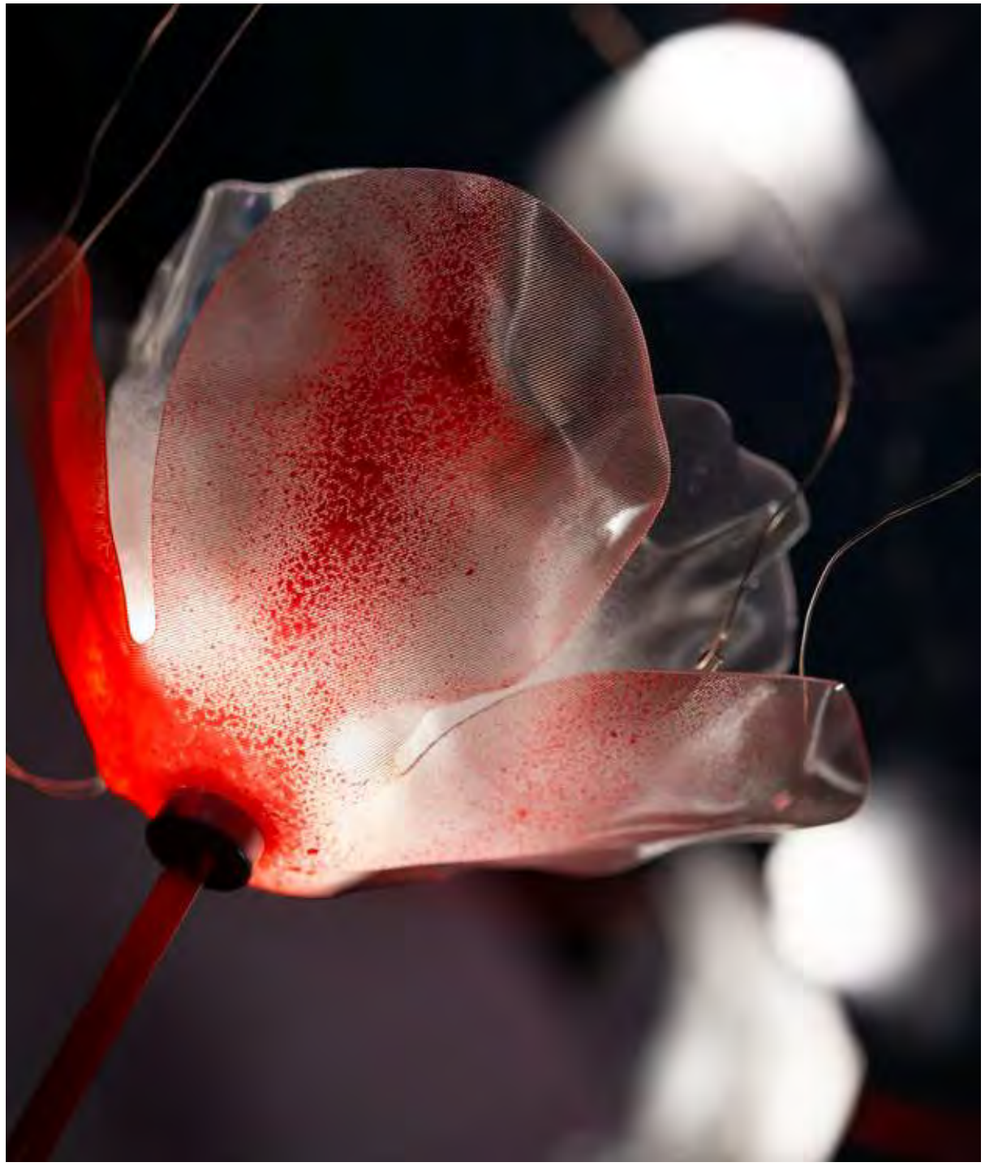

Papaveri in tecnopolimero modellati a mano, con steli in ottone verniciato rosso: un mix di artigianalità e design dal carattere deciso.

technical details p. 372

Modular and customizable system, available in **sets of 7 or 14 poppies**, ideal for personalized installations tailored to your space and design vision.

Sistema modulare e componibile, venduto in **multipli da 7 o 14 papaveri**, pensato per dare forma a installazioni uniche, perfettamente in sintonia con lo spazio e l'ispirazione del progetto.

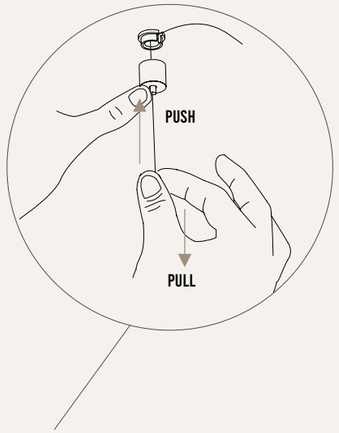

1 out of every 7 flowers is **hand-airbrushed in red**, by our Sarte della Luce in Slamp atelier near Rome, for an artistic accent that makes each composition truly exclusive.

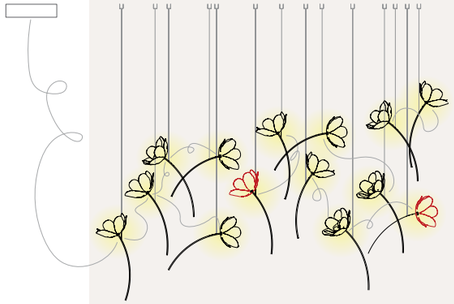

1 fiore su 7 è **aerografato a mano in rosso**, dalle nostre Sarte della Luce nell' atelier di Slamp alle porte di Roma, per un tocco artistico che rende ogni composizione ancora più esclusiva.

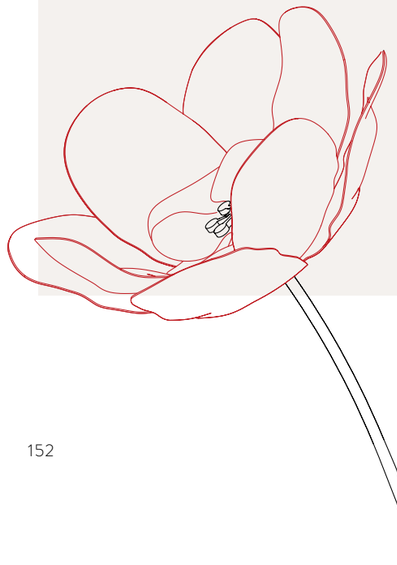

POPPIES
DON'T GROW
ON CEILING...
but ours do.

NESSUNO HA MAI VISTO PAPAVERI CRESCERE SUL SOFFITTO... FINO AD ORA.

A SUSPENDED GARDEN

Unique and handcrafted, Poppy's buds stand out for their lightness, held by graceful red-painted brass stems, which give them a bold character and a distinctly pop touch to the environment.

Created using the innovative, patented *Tecnoformatura* technique developed in collaboration with Marc Sadler, the technopolymer poppies are manually molded to give life to one-of-a-kind, non-replicable forms. Each flower gently diffuses LED light through 3 layers of Lentiflex® — two of which are softly shaded in white — joined by a central black pistil that enhances their structure and character.

1 in every seven flowers is airbrushed in red by our *Sarte della Luce* (Slamp artisan) in our atelier just outside Rome, making each poppy even more unique.

Clusterable and modular to suit various display needs, the poppies are **offered in multiples of 14 and 7**. The buds are connected in series to one another by two thin, elegant silver-plated copper wires that carry low-voltage electricity and lend the composition a scenic and poetic visual effect

Unici e modellati a mano, i papaveri di Poppy si distinguono per la loro leggerezza, sostenuta da sottili steli in ottone verniciati di rosso, che donano carattere e un tocco decisamente pop all'ambiente. Realizzati con l'innovativa tecnica brevettata della *Tecnoformatura*, sviluppata con Marc Sadler, i boccioli in tecnopolimero vengono plasmati manualmente per creare forme irripetibili. Ogni fiore diffonde la luce LED con straordinaria delicatezza grazie a 3 strati di Lentiflex® - di cui due interni sfumati in bianco - uniti da un pistillo nero centrale che ne esalta il carattere e la struttura.

1 fiore ogni sette è aerografato in rosso dalle nostre *Sarte della Luce*, nel laboratorio alle porte di Roma, rendendo ogni papavero ancora più irripetibile.

Clusterizzabile e modulare in base alle esigenze allestitive, viene proposto in multipli di 14 e di 7. Ciascun papavero è collegato in serie al successivo da due sottili e suggestivi fili di rame argentato, che conducono elettricità a bassa tensione e donano alla composizione un effetto scenografico e poetico.

technical details p. 372

COMPLIANT WITH THE **UNI EN 12464-1:2011** STANDARD

Examples of glare from reflections

Modula is designed to fully comply with the **UNI EN 12464-1:2011** standard, which defines the requirements for indoor lighting to ensure **visual comfort, safety and efficiency**. This standard establishes precise parameters such as illuminance levels, light distribution, glare, color rendering and colour temperature, ensuring that the lighting is adapted to the specific needs of each space.

By complying with this standard, the lamp offers excellent performance for workplaces, public or private spaces, **creating optimal lighting that promotes visual well-being and energy efficiency.** Choosing a UNI EN 12464-1:2011 compliant product means investing in quality, safety and attention to people's comfort.

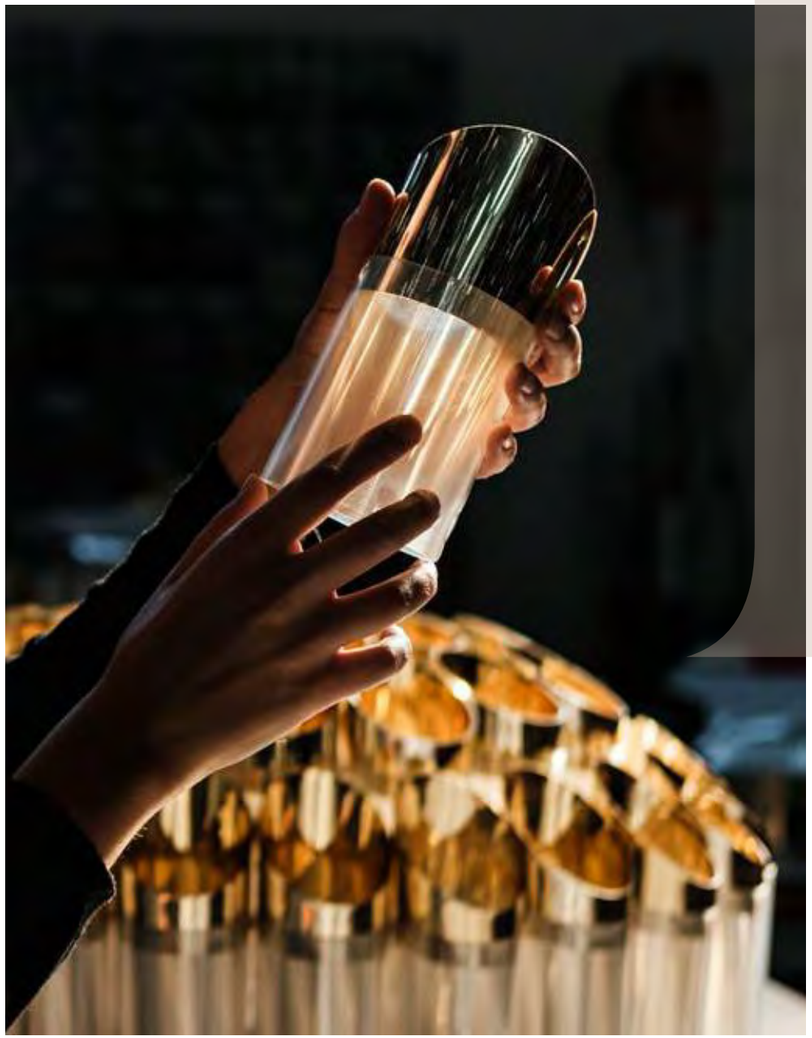

Photometric Polar Diagram of Modula

Modula è progettata per rispettare pienamente la normativa **UNI EN 12464-1:2011**, che definisce i requisiti per l'illuminazione di ambienti interni al fine di garantire **comfort visivo, sicurezza ed efficienza**. Questo standard stabilisce parametri precisi come i livelli di illuminamento, la distribuzione della luce, l'abbagliamento, la resa cromatica e la temperatura colore, assicurando che l'illuminazione sia adeguata alle esigenze specifiche di ogni spazio.

Grazie alla conformità a questa normativa, la lampada offre **prestazioni eccellenti per ambienti di lavoro, spazi pubblici o privati, creando un'illuminazione ottimale che promuove il benessere visivo e l'efficienza energetica**. Scegliere un prodotto conforme alla UNI EN 12464-1:2011 significa investire in qualità, sicurezza e attenzione per il comfort delle persone.

Used to enhance a domestic corner or in large-scale installations, **Hugo Vertical Suspension** creates a sculptural lighting presence with a strong visual impact, turning light into an architectural element.

Utilizzata per valorizzare un angolo domestico o in installazioni multiple di grande scala, **Hugo Vertical Suspension** crea una presenza luminosa scultorea, capace di generare un forte impatto visivo e trasformare la luce in architettura.

COMPLIANT WITH THE **UNI EN 12464-1:2011** STANDARD

Examples of glare from reflections

Photometric Polar Diagram of Hugo

Hugo is designed to fully comply with the **UNI EN 12464-1:2011** standard, which defines the requirements for indoor lighting to ensure **visual comfort, safety and efficiency**. This standard establishes precise parameters such as illuminance levels, light distribution, glare, colour rendering and colour temperature, ensuring that the lighting is adapted to the specific needs of each space.

By complying with this standard, the lamp offers excellent performance for workplaces, public or private spaces, **creating optimal lighting that promotes visual well-being and energy efficiency.** Choosing a UNI EN 12464-1:2011 compliant product means investing in quality, safety and attention to people's comfort.

Hugo è progettata per rispettare pienamente la normativa **UNI EN 12464-1:2011**, che definisce i requisiti per l'illuminazione di ambienti interni al fine di garantire **comfort visivo, sicurezza ed efficienza**. Questo standard stabilisce parametri precisi come i livelli di illuminamento, la distribuzione della luce, l'abbagliamento, la resa cromatica e la temperatura colore, assicurando che l'illuminazione sia adeguata alle esigenze specifiche di ogni spazio.

Grazie alla conformità a questa normativa, la lampada offre **prestazioni eccellenti per ambienti di lavoro, spazi pubblici o privati, creando un'illuminazione ottimale che promuove il benessere visivo e l'efficienza energetica**. Scegliere un prodotto conforme alla UNI EN 12464-1:2011 significa investire in qualità, sicurezza e attenzione per il comfort delle persone.

Pictured Veli Ceiling/Wall
Large - Aurea

The craquelet gold leaf details lend **richness to the softness** of the white texture of the diffuser
I dettagli in foglia d'oro craquelet conferiscono **ricchezza alla morbida texture** bianca del diffusore.

BULB SELECTION GUIDE

With the same lamp, different lighting effects can be achieved simply by varying the colour temperature of the bulbs. In the Veli Aurea model, the use of 2700 Kelvin or 3000 Kelvin bulbs **significantly changes the perception** of both the space and the product. For a neutral white effect, we recommend the 3000 Kelvin version.

Con la stessa lampada è possibile ottenere effetti luminosi differenti semplicemente variando la temperatura colore delle lampadine. Nel modello Veli Aurea, l'utilizzo di lampadine da 2700 Kelvin o 3000 Kelvin **modifica sensibilmente la percezione** dell'ambiente e del prodotto. Per un effetto bianco neutro, suggeriamo la versione 3000 Kelvin.

WHITE NUANCES OF VELI

technical details p. 375

COUTURE

Its textile texture-inspired finish makes it a perfect solution for giving rooms a soft, tone-on-tone finish. The texture is screen-printed in white on the diffusing Opalflex® material.

La sua finitura ispirata alle texture tessili la rende una soluzione perfetta per conferire agli ambienti una finitura morbida e tono su tono. La trama è in stampa serigrafica in bianco sul materiale Opalflex® diffondente.

WHITE

Made of Opalflex®, a material with the ability to diffuse light evenly, it has an opaque white print on the edges of the veils that creates a play of chiaroscuro with the light. The final effect is soft and particularly brilliant.

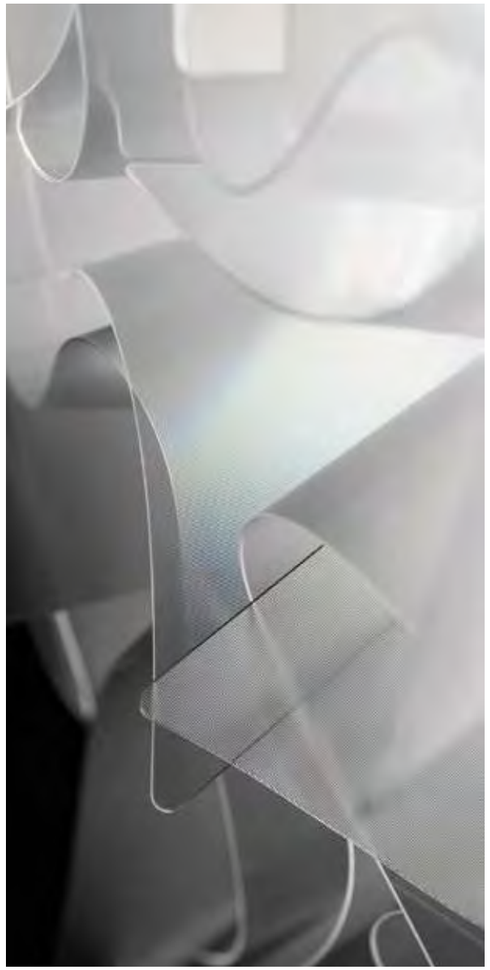

Realizzata in Opalflex®, materiale dalla capacità di diffondere la luce in modo omogeneo, ha una stampa bianca coprente sui bordi dei veli che crea un gioco di chiaroscuri con la luce. L'effetto finale è morbido e particolarmente brillante.

FOLIAGE

Veli's iconic shape is enhanced by elements inspired by the perfection of the natural world. Made of diffusing Opalflex®, each petal features a matte white print created with non-toxic paints, safe for any indoor environment

L'iconica forma di Veli è arricchita da elementi che ricordano la perfezione del mondo naturale. Realizzata in Opalflex® diffondente, ogni petalo ha una stampa bianca opaca realizzata con vernici atossiche e sicure per ogni ambiente indoor.

PRISMA

The transparent Lentiflex® surface appears, when viewed under a microscope, to consist of many prisms capable of capturing light and directing it to a precise point for an iridescent prismatic effect reminiscent of ice crystals struck by light.

La superficie trasparente del Lentiflex® appare, a una visione al microscopio, formata da tanti prismi capaci di catturare la luce e direzionarla verso un preciso punto per un effetto prismatico cangiante che ricorda i cristalli di ghiaccio colpiti dalla luce.

technical details p. 375

GOLD AND COPPER

Slamp's metallized materials are obtained by vaporizing an aluminum rod inside a hyperbaric chamber. During the process, **the degree of transparency of the metallization can be determined** to allow more or less light to pass through the surface.

I materiali metallizzati di Slamp sono ottenuti tramite la vaporizzazione in camera iperbarica di una barretta di alluminio. Nel processo **può essere deciso il grado di trasparenza della metallizzazione** per lasciar trasparire più o meno luce dalla superficie.

Pictured: Erwin Restaurant, Moscow - Russia.

VELI **7**

Veli 7 is a scenographic suspension with a diameter of 130cm made of **7 elements joined together.**

Veli 7 è una sospensione scenografica di 130cm di diametro composta da **7 elementi uniti tra loro**.

technical details p. 375

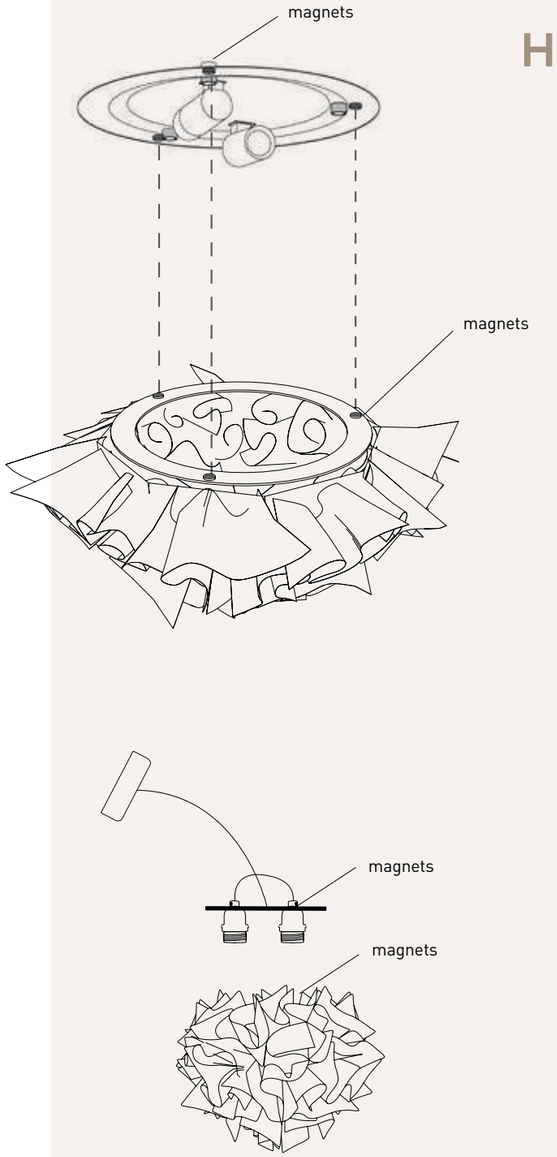

VELI **PRISMA**

Under microscopic observation, the transparent Lentiflex® surface reveals a structure of multiple prisms that capture and direct light, creating an iridescent prismatic effect reminiscent of light striking ice crystals.

Osservata al microscopio, la superficie trasparente in Lentiflex® rivela una struttura composta da numerosi prismi che catturano e direzionano la luce, generando un effetto prismatico cangiante che richiama i cristalli di ghiaccio illuminati.

BENEFITS OF **MAGNETIC HANGING SYSTEM**

All versions of Veli collection (Ceiling, Suspension and Table) are equipped with a **magnetic system**, an innovative system that facilitates installation and cleaning of the veils: the decoration detaches from the light source with a simple click.

Thanks to the magnetic attachment, the installation is quick and safe and not only **simplifies the maintenance** of the product in **domestic contexts**, but also proves extremely advantageous for use in **public environments** by simplifying maintenance and cleaning, ideal for ensuring order in high-traffic environments such as offices, hotels and restaurants.

Tutte le versioni della collezione Veli (Plafoniera, Sospensione e Tavolo) sono dotate di **attacco magnetico**, un sistema innovativo che facilita l'installazione e la pulizia dei veli: il decoro si stacca dalla fonte luminosa con un semplice click.

Grazie all'attacco magnetico, l'installazione è rapida e sicura e non solo **semplifica la gestione del prodotto in contesti domestici**, ma si rivela estremamente vantaggiosa anche per l'utilizzo **in ambienti pubblici semplificando la manutenzione** e la pulizia ideale per garantire ordine in ambienti ad alta frequentazione come uffici, hotel e ristoranti.

TECHNICAL DETAILS

ELECTRICAL INFORMATION - *INFORMAZIONI ILLUMINOTECNICHE*

The information in this section of the catalogue refers to electrical **STANDARDS WITH A VOLTAGE OF 220V.**
The electrical installation components and other accessories may vary depending on the regulations of different countries; please contact us for more information.

Le informazioni contenute in questa sezione del catalogo si riferiscono a **STANDARD ELETTRICI A TENSIONE DI 220V.**
Le componenti e le caratteristiche per installazione elettrica possono variare a seconda delle normative dei diversi Paesi; contattateci per maggiori informazioni.

BULBS WATTAGE - *WATTAGGIO LAMPADINE*

The wattage of the light bulbs is suggested for an optimal balance between luminous output and product aesthetics and should not be considered as the maximum power that can be installed on the product. Where explicitly recommended, please follow the indicated bulb size and diameter.

La potenza delle lampadine è suggerita per ottenere un equilibrio ottimale tra resa luminosa ed estetica del prodotto e non deve essere considerata come la potenza massima installabile sul prodotto.
Dove esplicitamente consigliato, attenersi alle dimensioni e al diametro della lampadina indicati.

DIMMING SYSTEM - *SISTEMI DI DIMMERAZIONE*

Lamps marked as dimmable are intended to be so only if the electrical system has been prepared for such light variation.
Ensure before ordering that the product's standard or accessory dimming system is compatible with this setting.
This is different for floor lamps and battery-powered lamps marked as dimmable, as their dimmer is integrated.

Le lampade contrassegnate come dimmerabili sono da intendersi tali solo se l'impianto elettrico è stato predisposto per tale variazione di luce. Assicurarsi prima dell'ordine che il sistema di dimmerazione standard o accessorio del prodotto sia compatibile con tale predisposizione. Questo è diverso per le lampade da terra e le lampade a batteria contrassegnate come dimmerabili, in quanto il loro dimmer è integrato.

HANDMADE PROCESS - *PROCESSO MANUALE*

Slight differences of colour/size are due to the handmade processes involved, every piece is unique.
Slamp reserves the right to modify products without notice in the event of commercial conditions rendering this necessary.

Lievi differenze di colore/dimensioni sono dovute alla lavorazione manuale, ogni pezzo è unico.
Slamp si riserva il diritto di modificare i prodotti senza preavviso nel caso in cui le condizioni commerciali lo rendano necessario.

CERTIFICATIONS - *CERTIFICAZIONI*

Slamp products comply with international electrical standards. For country-specific certifications, please contact us for more information.
I prodotti Slamp sono conformi agli standard elettrici internazionali, non esitate a contattarci per certificazioni specifiche per paese.

RAEE STANDARDS COMPLIANT

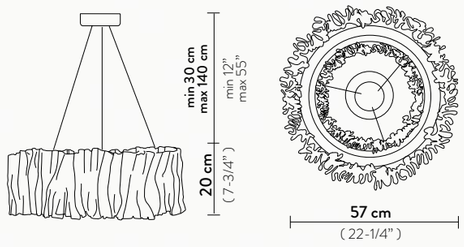

ACCORDÉON SUSPENSION

Light Source: 52W - 170~240Vac/24Vdc - 5.900 Lumen 3.000/2.700 Kelvin - CRI >90, Integrated LED

Dimmable: Triac Trailing Edge

Additional dimming system Dali, Casambi upon request.

Materials: Lentiflex®, Lentiflex® with cold foil

GOLD SILVER WHITE

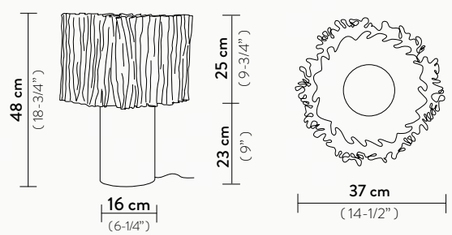

ACCORDÉON TABLE

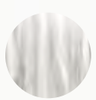

Light Source: 2 X 12W E27 LED Filament Bulbs + 1 X 6W E14 LED Filament Bulb

Dimmable: not dimmable

With: two position light switch, Magnetic System

Materials: Lentiflex®, Cristalflex®

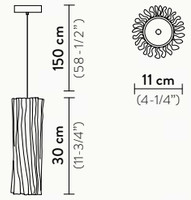

PRISMA

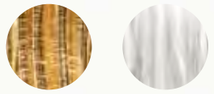

ACCORDÉON VERTICAL SUSPENSION

Light Source: 1 X 6W E14 LED Filament Bulb (max Ø5cm)

Dimmable: with dimmable bulbs

Materials: Lentiflex®, Lentiflex® with cold foil

GOLD PRISMA

ACCORDÉON BATTERY

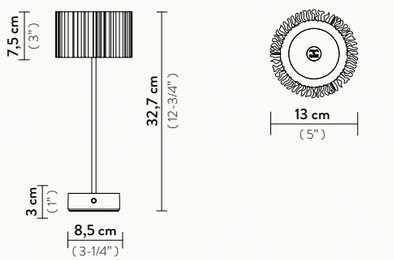

Light Source: 1,3W - 150 Lumen - 2.700 Kelvin - Battery LED

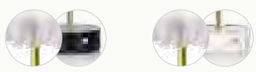

Duration: at max intensity around 6,5 hours duration, at min intensity around 60 hours duration

Dimmable: with integrated dimmer

Materials: Lentiflex®, anodized aluminium

USB Multicharger station (20 ports) available

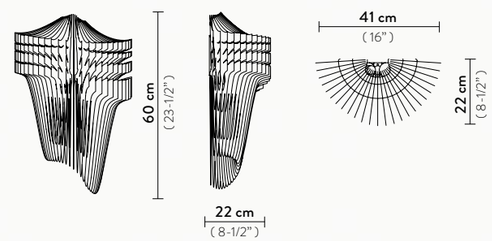

PRISMA/BRASS with black base PRISMA/BRASS with white base TOUCH DIMMER BATTERY POWERED

Dimmable:	PWM, 0-10
Materials:	Light Silicone Clamps Polycarbonate V0
Weight:	net 0,55 Kg - gross 0,92 Kg
Packaging:	36 x 38 x h. 15 cm

HARDWARE AND TOOLS

ADDITIONAL CLIPS

CLIP CONNESSIONE MODULI

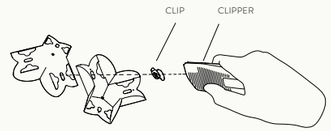

Materials:	Polycarbonate V0
Weight:	net 0,008 Kg - gross 0,01 Kg
Packaging:	14 x 9 x h. 1,5 cm
Pack of:	10 pieces

CLIPPER

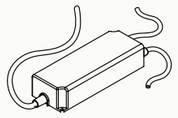

STRUMENTO CONNESSIONE MODULI

Materials:	Polycarbonate
Weight:	net 0,042 Kg - gross 0,05 Kg
Packaging:	9,4 x 18 x h. 3,2 cm

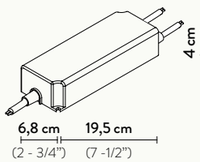

IT IS MANDATORY TO BUY AT LEAST 1 CLIPPER FOR EVERY 10 MODULES.

DRIVER

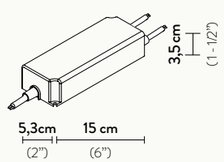

ALIMENTATORE

IP67

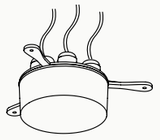

DRIVER
Up to 8 lights

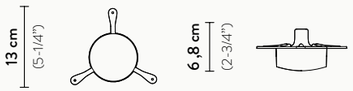

DRIVER
Up to 2 lights

Source:	8 lights	200W - 100~240 Vac/24 Vdc - 50-60Hz
	2 lights	60W - 100~240 Vac/24 Vdc - 50-60Hz
Dimmable:		PWM, 0-10
Weight:	8 lights	net 1,01 Kg - gross 1,06 Kg
	2 lights	net 0,48 Kg - gross 0,52 Kg
Packaging:	8 lights	29 x 10 x h. 5 cm
	2 lights	23,3 x 8 x h. 4,2 cm

JUNCTION CASE

SCATOLA DI DERIVAZIONE

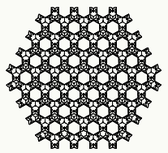

Materials:	Polycarbonate V0
Weight:	net 0,2 Kg - gross 0,21 Kg
Packaging:	18 x 26 x h. 7 cm
Up to:	6 light units

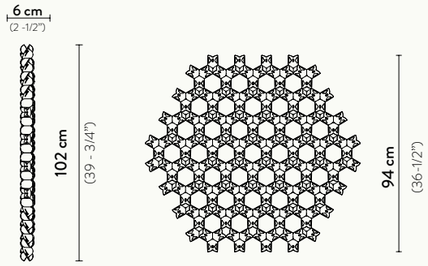

NUVEM INDOOR
MODULAR SYSTEM

Slamp offers a consulting and design service for the Nuvem system, guiding clients in the configuration process, which is fully tailored to the project's characteristics and the specific needs of the space, thanks to the system's standard and customizable accessories.

THE MINIMUM ORDER QUANTITY IS 5 MODULES.

MODULE

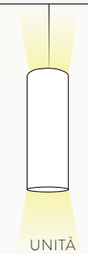

Materials:	Opalflex® or Lentiflex®
Weight:	net 2,2 Kg - gross 2,5 Kg
Packaging:	100 x 107 x h. 7 cm
Included:	Modules connectors

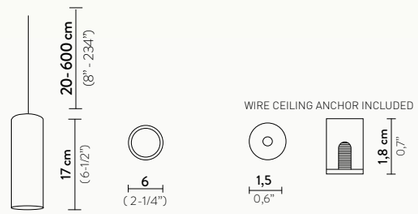

WHITE

VELVET

SUSPENSION BI-DIRECTIONAL SPOTLIGHT

UNITÀ LUMINOSA

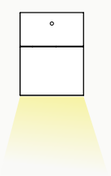

Light Source:	2 X 8W GU10 LED PAR 16
Dimmable:	with dimmable bulbs
Materials:	Steel
Weight:	net 0,5 Kg - gross 0,6 Kg
Packaging:	11 x 10 x h. 21 cm

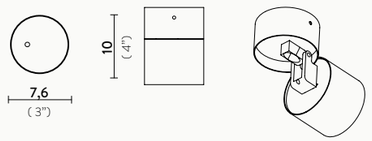

WHITE - RAL 9016

VELVET - brushed brass finish

CEILING/ WALL SPOTLIGHT

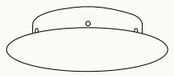

UNITÀ LUMINOSA

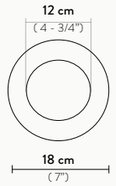

Light Source:	10W - 220~240V/24Vdc - 3.000 Lumen - 3.000 Kelvin - CRI >90, Integrated LED
Materials:	Steel
Weight:	net 0,18 Kg - gross 0,20 Kg
Packaging:	8 x 8 x h. 11 cm

WHITE - RAL 9016

CANOPY

COPPETTA

Fit:	max 6 electric wires
Materials:	Steel
Weight:	net 0,25 Kg - gross 0,5 Kg
Packaging:	19 x 19 x h. 6 cm

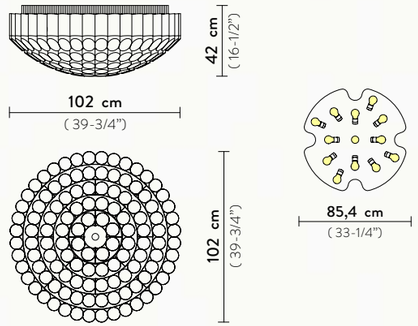

WHITE - RAL 9016

ODEON CEILING 100

Light Source: 12 X 12W E27 LED Filament Bulbs + 1 X 11W Spot LED PAR 30

Dimmable: with dimmable bulbs

Materials: Lentiflex®, Lentiflex® with cold foil

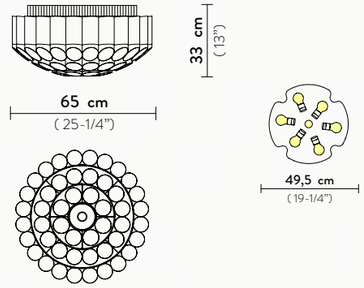

GOLD

ODEON CEILING 65

Light Source: 6 X 12W E27 LED Filament Bulbs + 1 X 11W Spot LED PAR 30

Dimmable: with dimmable bulbs

Materials: Lentiflex®, Lentiflex® with cold foil

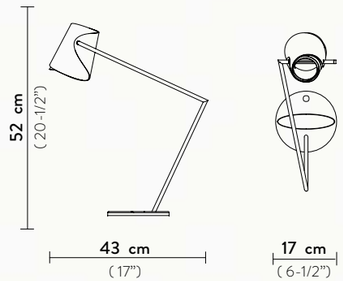

OVERLAY THE IDEAL WRITING LAMP

Light Source: 4W - 24V Vdc - 500 Lumen - 2.700 Kelvin - CRI >90, Integrated LED + 1 X 1,5W Integrated LED

Dimmable: not dimmable

Materials: Brass, Lentiflex® with cold foil, Lentiflex®

MONT BLANC

AVAILABLE WITH MEISTERSTÜCK LEGRAND BALLPOINT PEN GOLD-COATED

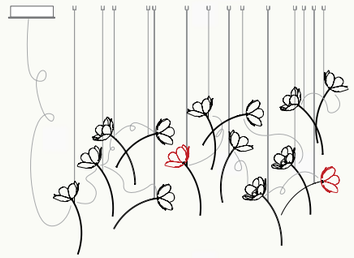

BRASS

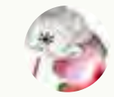

2 INDEPENDENT LIGHT SOURCES

TECHNICAL DETAILS

POPPY 14 FREE-STANDING

Light Source: 14 X 3,2 W Integrated LED
170-240 Vac/24 Vdc, 6.300 Lumen - 3.000/2700 Kelvin
Dimmable: Triac Trailing Edge
Dali and Casambi upon request.
Materials: Lentiflex®, red-painted brass stems

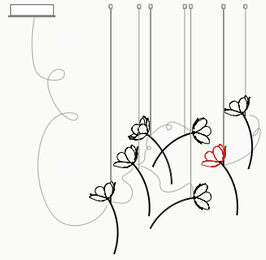

PRISMA/RED

POPPY 7 FREE-STANDING

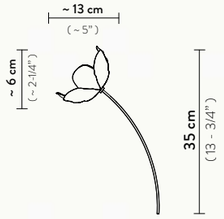

Light Source: 7 X 3,2 W Integrated LED
170-240 Vac/24 Vdc, 3150 Lumen - 3.000/2700 Kelvin
Dimmable: Triac Trailing Edge
Dali and Casambi upon request.
Materials: Lentiflex®, red-painted brass stems

MAIN COPPER ELECTRIC WIRE
max 300 cm (117")

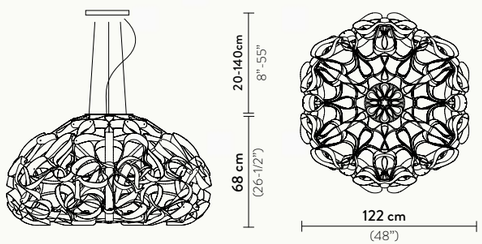

COPPER ELECTRIC WIRE
max distance from one poppy to another max 60 cm (23")

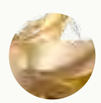

ADJUSTABLE STEEL CABLES
min 20 cm (7-3/4")
max 300 cm (117")

QUANTICA SUSPENSION 120

Light Source: 8 X 12W E27 LED
Filament Bulbs
Dimmable: with dimmable bulbs
Materials: Opalflex® with cold foil

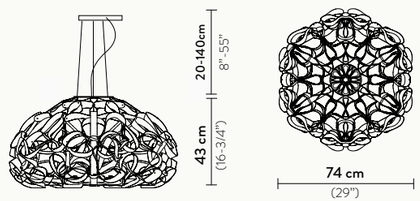

GOLD

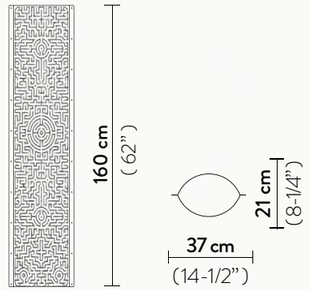

QUANTICA SUSPENSION 75

Light Source: 4 X 12W E27 LED
Filament Bulbs
Dimmable: with dimmable bulbs
Materials: Opalflex® with cold foil

THE LIGHTNING ARCHIVES FLOOR

Light Source: 3 X 12W E27 LED
Filament Bulbs
Dimmable: with dimmable bulbs
Materials: Opalflex®, Cristalflex®

FAENA

L'AFRIQUE

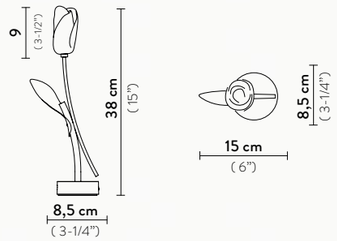

LABYRINTH

LOVE PEACE JOY

TULIP BATTERY

Light Source: 1 X 1,3W Battery LED - 150 Lumen - 3.000 Kelvin
Dimmable: with integrated dimmer
With: at max intensity around 6,5 hours duration, at min intensity around 60 hours duration
Materials: Lentiflex®, anodized aluminium

PRISMA
with black base

PRISMA
with white base

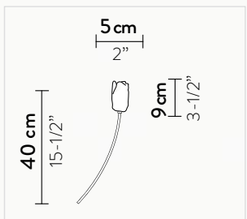

TOUCH DIMMER

BATTERY POWERED

TULIP SUSPENSION 14 FREE-STANDING

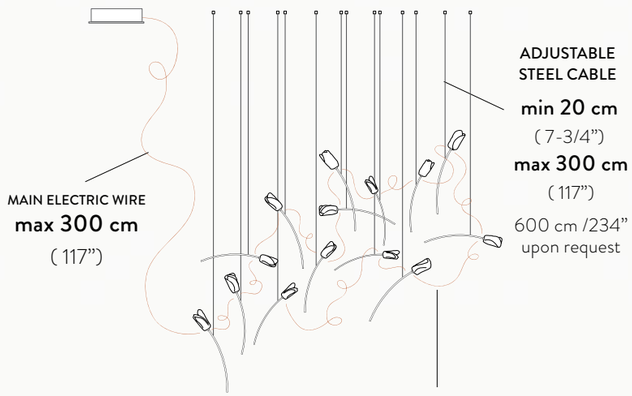

Light Source: 14 X 3,2W Integrated LED 170-240 Vac/24 Vdc - 6.300 Lumen - 3.000 Kelvin
Dimmable: Triac Trailing Edge
Dali and Casambi upon request.
Materials: Lentiflex®, Matte Brushed Brass

CANOPY
Ø30 x h.4,5 cm
Ø11,7" x 1,75"

PRISMA/BRASS

Maximum distance from one tulip to another (electric copper cable) of 60 cm / 23"

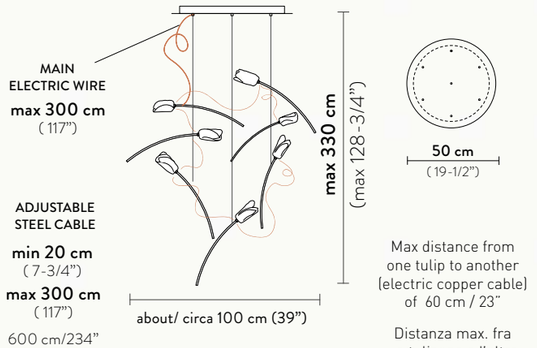

Distanza massima fra un tulipano e l'altro (cavo elettrico in rame) di 60 cm

TULIP SUSPENSION **7 ROUND**

Light Source: 7 X 3,2W Integrated LED 170~240 Vac/24 Vdc - 3.150 Lumen - 3.000 Kelvin

Dimmable: Triac Trailing Edge. Dali, Casambi upon request.

Materials: Lentiflex®, Matte Brushed Brass

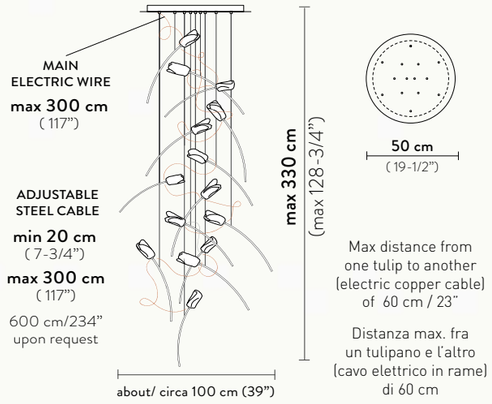

TULIP SUSPENSION **14 ROUND**

Light Source: 14 X 3,2W Integrated LED 170~240 Vac/24 Vdc - 6.300 Lumen - 3.000 Kelvin

Dimmable: Triac Trailing Edge. Dali, Casambi upon request.

Materials: Lentiflex®, Matte Brushed Brass

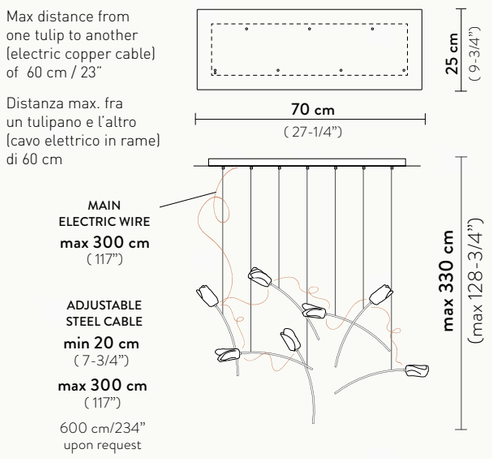

TULIP SUSPENSION **7 LINEAR**

Light Source: 7 X 3,2W Integrated LED 170~240 Vac/24 Vdc - 3.150 Lumen - 3.000 Kelvin

Dimmable: Triac. Dali, Casambi upon request.

Materials: Lentiflex®, Matte Brushed Brass

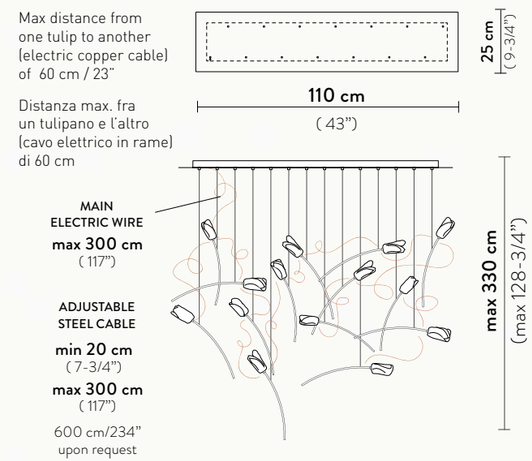

TULIP SUSPENSION **14 LINEAR**

Light Source: 14 X 3,2W Integrated LED 100~240 Vac/24 Vdc - 6.300 Lumen - 3.000 Kelvin

Dimmable: Triac. Dali, Casambi upon request.

Materials: Lentiflex®, Matte Brushed Brass

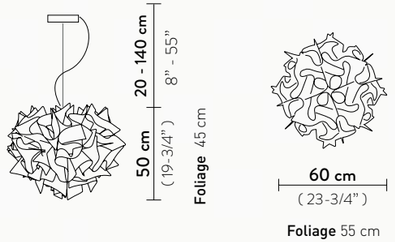

VELI SUSPENSION **LARGE**

Light Source: 4 X 12W E27 LED Filament Bulbs Aurea recommended 3000 Kelvin

Dimmable: with dimmable bulbs

With: Magnetic hanging System

Materials: Opalflex® / Lentiflex® / Goldflex® / Copperflex® Lentiflex® with cold foil

VELI SUSPENSION **SMALL**

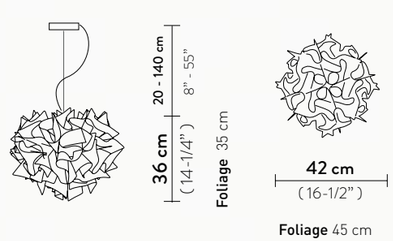

Light Source: 2 X 12W E27 LED Filament Bulbs Aurea recommended 3000 Kelvin

Dimmable: with dimmable bulbs

With: Magnetic hanging System

Materials: Opalflex® / Lentiflex® / Goldflex® / Copperflex® Lentiflex® with cold foil

MAGNETIC SYSTEM

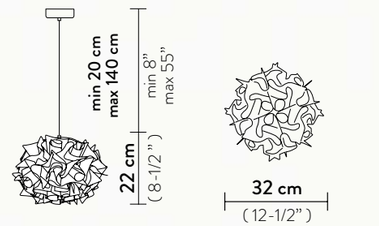

VELI SUSPENSION **MINI COUTURE**

Light Source: 1 X 12W E27 LED Filament Bulb

Dimmable: with dimmable bulbs

With: Magnetic hanging System

Materials: Opalflex®

COUTURE

MAGNETIC SYSTEM

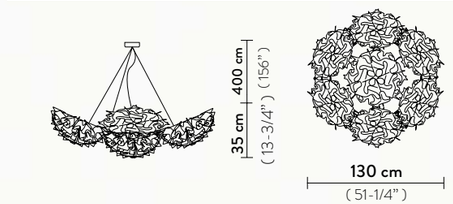

VELI SUSPENSION **7**

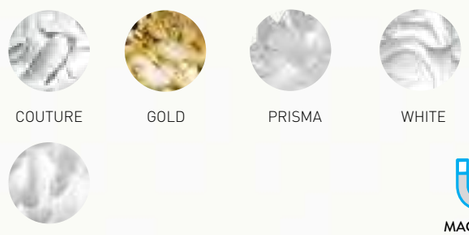

Light Source: 9 X 12W E27 LED Filament Bulbs

Dimmable: with dimmable bulbs

With: Magnetic hanging System

Materials: Opalflex® / Lentiflex® / Goldflex®

MAGNETIC SYSTEM

VELI CEILING/WALL **L**

Light Source: 3 X 12W E27 LED Filament Bulbs - Aurea recommended 3000 Kelvin

Dimmable: with dimmable bulbs

With: Magnetic hanging System
Bayonet Mount for North America

Materials: Opalflex® / Lentiflex® / Goldflex® / Copperflex® / Lentiflex® with cold foil

Foliage 75 cm

Foliage 22 cm

VELI CEILING/WALL **M**

Light Source: 2 X 12W E27 LED Filament Bulbs - Aurea recommended 3000 Kelvin

Dimmable: with dimmable bulbs

With: Magnetic hanging System

Materials: Opalflex® / Lentiflex® / Goldflex® / Copperflex® / Lentiflex® with cold foil

Foliage 54 cm

Foliage 16 cm

VELI CEILING/WALL **MINI**

Light Source: 2 X 6W E14 LED Filament Bulbs - Aurea recommended 3000 Kelvin

Dimmable: with dimmable bulbs

With: Magnetic hanging System

Materials: Opalflex® / Lentiflex® / Goldflex® / Copperflex® / Lentiflex® with cold foil

Foliage 36 cm

Foliage 13 cm

ETHICAL AND ENVIRONMENTAL CERTIFICATIONS- *CERTIFICAZIONI ETICO-AMBIENTALI*

At Slamp, creativity and responsibility guide a design approach focused on sustainability and people. Our commitment is recognised through certifications that attest to high standards of equity, environmental management and responsible innovation

In Slamp, creatività e responsabilità guidano un design attento alla sostenibilità e alle persone. Il nostro impegno è riconosciuto da certificazioni che attestano elevati standard di equità, gestione ambientale e innovazione responsabile.

UNI/PDR 125:2022 – GENDER EQUALITY

Slamp promotes a fair and inclusive workplace, ensuring equal opportunities and valuing merit.
Slamp promuove un ambiente di lavoro equo e inclusivo, garantendo pari opportunità e valorizzando il merito.

ISO 14001 – ENVIRONMENTAL MANAGEMENT

This certification confirms our commitment to reducing environmental impact through responsible resource management.
La certificazione attesta il nostro impegno nella riduzione dell'impatto ambientale attraverso una gestione responsabile delle risorse.
